

A scenic photograph of a coastal town in the Maritimes. In the foreground, a white boat with 'PEGGY'S' written on its side is docked in a calm bay. A smaller red boat is nearby. The background shows a red wooden building on a rocky shore, with other houses visible further up the cliffside under a blue sky with light clouds.

# The Maritimes

coastal vistas you'll never forget

**The Maritimes offer a unique charm unlike anywhere else in Canada. Students will experience this region's rugged cliff sides, picturesque beaches and colourful houses while learning about Canadian history and east coast culture.**

We will meet with a variety of local organizations who will lead students through workshops, excursions, and presentations aligned with the program theme. Students will explore iconic landmarks, authentic fishing villages, various museums and may even participate in a whale watching or iceberg spotting tour!
